Career Objective

Passionate Computer Science Engineering student with strong interest in Python programming, problem-solving, and software development. Skilled in analytical thinking, teamwork, and communication with hands-on internship on Python development, and research activities. Seeking opportunities to apply technical knowledge and continuously grow through real-world projects and development experience.

Education

Sapthagiri NPS University, Bengaluru	Oct 2024 - Jul 2028 CGPA: 9.16
B.E(Bachelor of Engineering) in Computer Science & Engineering	
Rural PU College , Kanakapura (KSSEB)	Mar 2023 - Mar 2024 Percentage: 91.16
Morarji Desai Residential School , Sathanooru (KSSEB)	Mar 2021 - Mar 2022 Percentage: 96

Skills

Programming & Scripting: Python, C Programming (Basic), Java (Basic), JavaScript

Web & Development Tools: HTML, CSS, Flask, Git, GitHub, VS Code

Databases & Technologies: SQLite, OpenCV, Arduino, Sensor Integration

Core Fundamentals: Data Structures & Algorithms, Problem Solving, Debugging, Analytical Thinking

Soft Skills: Communication, Teamwork, Time Management, Professional Communication

Projects

ZERS – Zero-Device Emergency Response System :

Tech: Python, Flask, HTML, CSS, JavaScript, SQLite

Team Members: 4

Description:

- Developed an offline-first emergency response system for disaster situations without internet or mobile access.

- Built a Flask-based dashboard to monitor alerts and manage emergency response allocation.
- Simulated IoT emergency infrastructure such as SOS poles and disaster detection systems.
- Implemented priority-based crisis handling for faster emergency coordination.

Gesture Domotics – Smart Appliance Control :

Tech: Python, OpenCV, Arduino

Team Members: 1

Description:

- Built a gesture-based home automation system for controlling appliances.
- Used Python and OpenCV for gesture detection and Arduino for device control.
- Improved touch-free interaction and automation efficiency.

Smart Irrigation System :

Tech: Python, Arduino, Sensors

Team Members: 1

Description:

- Developed a smart irrigation system based on soil moisture monitoring.
- Automated water supply using sensors and Arduino integration.
- Improved efficient water usage through automation.

Certifications

Python Developer Internship | Elevate Labs : Certified in Python programming, problem-solving, and development tasks.

Marketing & Research Internship | SkillTurn : Certified for contributing to marketing, research, and coordination activities.

Introduction to Modern AI | Cisco Networking Academy : Certified in AI fundamentals, modern AI applications, and ethical AI usage.

Introduction to Cybersecurity | Cisco Networking Academy : Certified in cybersecurity fundamentals, cyber threats, and online protection techniques.

AI Fluency: Framework & Foundations | Anthropic : Certified in AI fundamentals and responsible AI workflows.

Claude 101 | Anthropic : Certified in Claude AI fundamentals and prompt engineering concepts.

Claude Code in Action | Anthropic : Certified in AI-assisted coding, debugging, and development workflows.

Introduction to Data Visualization | Udemy / 365 Careers : Certified in charts, dashboards, and data visualization fundamentals.

Achievements

- Consistently practicing **DSA** and sharing coding learning progress on **GitHub**.
- Maintaining strong academic performance with **9.16** CGPA.

Personal Details

Father's Name: Shivalinga

D.O.B: 02-07-2006

Address: 478, Pipeline Road, Bengaluru, Karnataka 560086

Declaration

I hereby declare that the above details are true and correct to the best of my knowledge.

Place: Bengaluru
